The demons in this book can be called with a simple ritual, and will destroy ambition, cause anxiety, bring nightmares, and stir a fear of madness, while causing depression and weakness.

The magick within this book is effective for quelling trouble in your life, brought about by bullies, egotists and the criminally minded. Properly applied, it will stop Idiots from harassing you by bringing guilt, discomfort and pain into their minds and interfere with their demented focus to cause pain for you, your loved ones, pets or anyone you care about, this magick will distract and disrupt the trouble-makers mindset and intent. I would add a disclaimer for this magick; do NOT use it to become a bully Yourself. Do NOT become a Terror to those whom you intend to bring pain, grief and confusion without cause; your magickal response must be Justified. Use this magick for purposes of self defence only. This magick ought not be used to aid you in a personal quest for power, fear and vanity. This book is short, just 57 pages long, the rituals are not complex, and are easy to comprehend once the reader studies the book thoroughly. The Seals are simple illustrations of black ink, hand drawn black on white pages. You may perform a ritual with book in hand to gaze at the Seals or photocopy the Seals and place them where convenient for your intended ritual. I would have preferred the author placed a bit more emphasis on Respect for the demonic spirits, that's only omission I noted in the book, Respect for these entities is paramount for a more successful working, in my opinion. Common with just about every other treatise on magick, it is best to implement against bullies whom are NOT Occultists. Becoming involved in a magickal war (particularly one you've started) will bite you back hard. I'm not referring to Karma or the so called 3 Fold Law but pointing out that seasoned mages are perceptive enough to Know an attack has been launched against them These same practitioners will return your curses back to you with added interest, something no one needs to experience! In short, this book is useful for magickal self defence against trouble-makers and other Idiots!
